

VDL Castings

Strength through cooperation

VDL Castings

VDL CASTINGS, WITH FOUNDRIES IN HEERLEN AND WEERT, IS A MANUFACTURER OF COMPLEX CASTINGS. WITH MORE THAN 100 YEARS OF EXPERIENCE, WE PRODUCE VARIOUS PRODUCTS FOR THE AUTOMOTIVE INDUSTRY, THE AGRICULTURAL SECTOR, CONSTRUCTION AND MINING INDUSTRY AND MACHINE BUILDING IN GENERAL. THE RENOWNED DUTCH FOUNDRIES, TAKE CARE OF YOUR PRODUCT FROM DESIGN TO DELIVERY. VDL CASTINGS SPECIALIZES IN THE SUPPLY OF MORE COMPLEX CASTINGS.

VDL Castings makes castings for trucks, earthmoving machines, compressors, agriculture machines, trains and wind turbines. We produce various types of differential housings, supports, shafts, gearboxes, pressure vessels, brake system components, turbo-houses and hydraulic blocks.

LOCATIONS

Depending on the desired product and volume, the choice of a VDL Castings location will be determined. For you, nothing changes and your contact person remains your personal point of contact.

MATERIAL TYPES

We manufacture castings according to EN standards EN 1561, EN 1563, EN 1564 and EN 16124. Upon request, material can also be produced according to customer specific standards or other international standards (ISO, ASTM, JIS, etc.).

Delivery program spheroidal graphite cast iron:

EN-GJS-350-22-LT
EN-GJS-350-22
EN-GJS-400-18-LT
EN-GJS-400-18
EN-GJS-400-15
EN-GJS-450-10
EN-GJS-500-7
EN-GJS-600-3
EN-GJS-700-2
Silicon alloyed grades;
EN-GJS-450-18
EN-GJS-500-14
EN-GJS-600-10

Delivery program grey cast iron

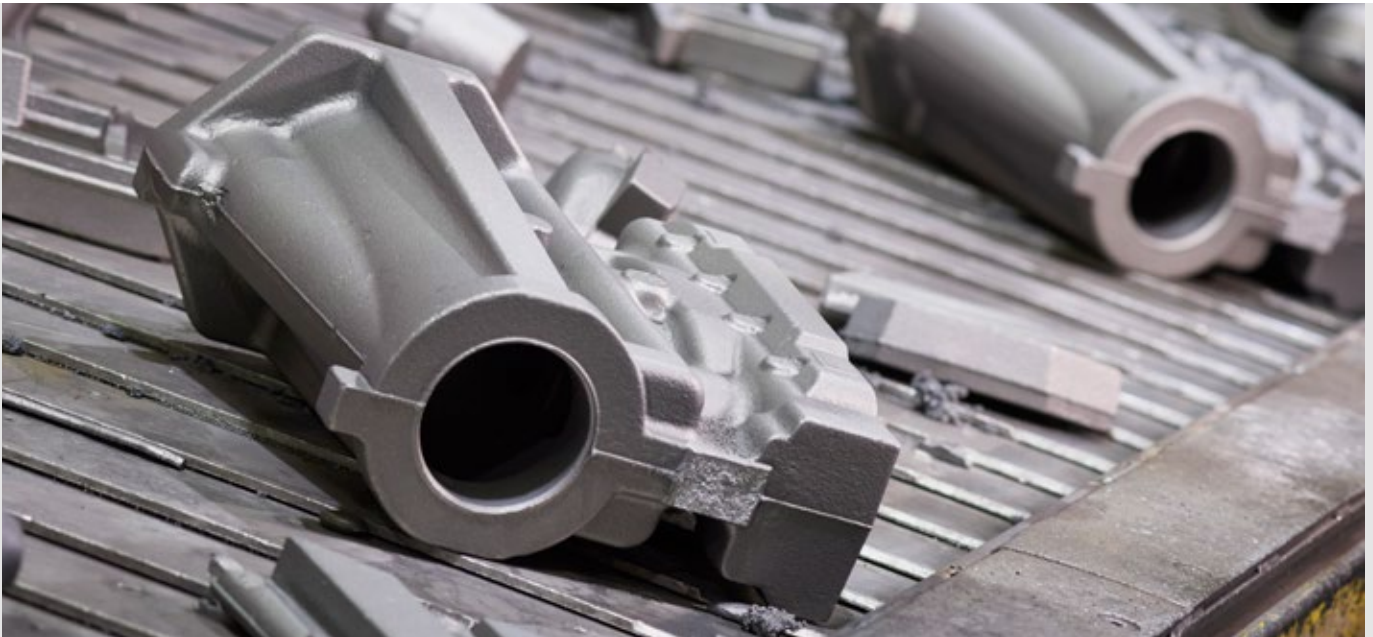

EN-GJL-100
EN-GJL-150
EN-GJL-200
EN-GJL-250
EN-GJL-300
EN-GJL-350

Delivery program Ausferritic spheroidal graphite cast iron (commonly referred to as ADI):

EN-GJS-800-10
EN-GJS-800-10-RT
EN-GJS-900-8
EN-GJS-1050-6
EN-GJS-1200-3
EN-GJS-1400-1

Delivery program SiMo, low alloy ferritic spheroidal graphite cast iron:

EN-GJS-SiMo25-5
EN-GJS-SiMo30-7
EN-GJS-SiMo35-5
EN-GJS-SiMo40-6
EN-GJS-SiMo40-10
EN-GJS-SiMo45-6
EN-GJS-SiMo45-10
EN-GJS-SiMo50-6
EN-GJS-SiMo50-10

THE CAPACITY OF THE FOUNDRIES

Foundry Heerlen

- HWS Mould line:
850 x 630 x 330/330
- Capacity moulding line:
130 moulds/hour
- Melting:
cupola furnace 20 tons/hour
- Core shooting machine:
FCS60/H16/ H12/H6,5
- Grinding:
Automatic grinding machine and manual

Foundry Weert

- HWS Mould line:
1,250 x 850 x 400/400
- Capacity moulding line:
60 moulds/hour
- Melting:
Electric induction furnace 10 tons/hour
- Core shooting machine:
L130/L150/H40/L16
- Grinding:
Automatic grinding machine and manual

VDL Groep

VDL Castings is part of VDL Groep, an international industrial family business with 102 operating companies, spread throughout 20 countries, with around 17,000 employees. The VDL companies break down into four divisions: Subcontracting, Car Assembly, Buses and Coaches and Finished products.

VDL Groep is a major player in the subcontracting and semi-finished products sectors, produces its own finished products such as suspension systems, is active in automotive factory automation, builds heat exchangers and container handling systems, and the family business owns VDL Nedcar in Born, the Netherlands' only large passenger car assembly factory, which carries out assembly line production of cars for third parties.

VDL Groep innovates through a combination of craftsmanship, entrepreneurship and high-quality machinery. The group of companies combines the clout of a multinational with the flat organisation and open, informal working atmosphere of a family business, where priority is given to growth opportunities and continuity.
